

WHO WANTS TO HELP ME BUILD SELF ESTEEM IN MY STUDENTS?

My name is Chris de Feijter and I am a special education teacher in the North of Saskatchewan, Canada. The school I work in is very isolated and situated in a small town, with an attached Cree reserve. We do not have many resources, like schools in cities do.

- Team Building
- Create Self Esteem
- Make kids wanted
- Improve social skills
- Improve Academics
- Let kids know you Care!
- No more school anxiety

Do you have access to old Lego building blocks? Or maybe one of your friends has 3 lbs of Lego somewhere in a corner of the storage room? Or maybe your co worker or employer has some? I want it!

**Check out my website
www.mylegoproject.com**

You can help in many ways, even if you do not own any Lego.

- Tell friends and family about this project
- Give support by contacting local companies
- Donate money via Pay Pal
